- 1 Understand:** We seek to understand your unique feed process and challenges.
- 2 Custom Quote:** Based on your needs, we provide a custom quote for the software and hardware you need.
- 3 Installation:** An Amelcor representative visits your farm to take care of the installation.
- 4 Training & Success:** We train your staff so they are comfortable with the new software.

# EZfeed Tablet Software

## Let EZfeed Guide You

**The EZfeed tablet software was designed to adapt to any screen size and be highly visible. EZfeed helps guide your feeders in creating the perfect TMR and unloading the right amount in front of each pen.**

The tablet software also helps you track what actually was loaded and fed - for the feedback you need to improve. It is the perfect productivity tool for feeders!

## *Is it time to* **Upgrade EZfeed?**

Newer technology saves time and money by allowing your feeders and feed managers to be more efficient.

**Did you know there are options for tablet computers and software plan?**

There are options if you don't need the most rugged tablet computer or would prefer to subscribe on a monthly basis to use the EZfeed software.

Visit [amelicor.com/tablet](http://amelicor.com/tablet) or use the QR code to read more about the EZfeed tablet software and request more information about your options.
