OUR SERVICE AREA

FBI Buildings continues to expand our service area.

Our current service area is spread over eight mid-western states.

MAXIMIZED PROFIT. ENHANCED DESIGN. CONSTRUCTION EXCELLENCE.

ABOUT FBI BUILDINGS

Founded in 1958, FBI Buildings has been serving the Midwest dairy market for 65 years.

FBI's mission is building better lives for those we serve. Our dairy facilities help you maximize your profit and enhance your overall productivity.

Our expertise is backed by in-house engineering, and our high-quality crew power allows us to complete your project on time with excellence.

WHY FBI BUILDINGS

Our in-house design and engineering team are experts, experienced, and able to deliver innovative solutions to meet your operational challenges, whether that's:

- Animal Health
- Feeding levels
- Efficient movement of your cows, people, and equipment.

FBI Buildings provides construction management for the structure of your project, from procurement and delivery to construction to ensuring your facility is on time and within budget. This ensures that every material, every detail, and every component that our engineers specify for structural integrity is included. And that your building works as designed.

We employ and train our crews and provide the equipment they use. It's the best way to get the quality level we demand. Our crews are skilled, experienced, and respectful. As part of our team, they share our commitment to doing it right.

OUR PLEDGE TO YOU.

COMMITMENT

At FBi Buildings, our **COMMITMENT** to our customers is the bedrock of our business philosophy. We understand that each project, regardless of size or scope, is a significant investment for our clients. That's why we go above and beyond to ensure their complete satisfaction.

We listen intently to their needs, collaborate closely to address their unique requirements, and consistently communicate throughout the construction process. We don't just build structures; we build trust and lasting relationships with our customers, making their visions a reality while exceeding their expectations.

CAPABILITY

FBi Buildings has a remarkable **CAPABILITY** to complete projects and efficiently meet our customers' deadlines. Our streamlined processes, experienced teams, and advanced project management tools enable us to work precisely and quickly without compromising quality.

We understand the importance of adhering to our client's timelines, and our commitment to meeting or even exceeding those deadlines is unwavering.

EXPERTISE

FBI Buildings has a rich history of designing and building agricultural structures of any size; we have refined our **EXPERTISE** to an exceptional level.

Our team understands dairy operations' unique needs and challenges, from efficient layouts to the specific structural demands of housing livestock and equipment.

We leverage our extensive knowledge to create custom solutions that enhance our dairy clients' comfort, productivity, and profitability.

Whether it's a new facility or renovating an existing one, our expertise in post-frame construction ensures that dairy customers receive top-tier structures tailored precisely to their requirements, setting the stage for operational success.
