KEY DAIRY PROGRAM

KEY DAIRY PROGRAM

Agri-King's Key Dairy Program provides dairy producers personalized rations with flexible solutions to improve herd profitability. These highly-fortified products perform in precisely-balanced rations for optimal herd health and performance to meet the nutritional needs of all classes of dairy cattle.

FORAGE AND GRAIN TREATMENT

Treating forages and grains with Silo-King® minimizes heating and dry matter loss, resulting in enhanced digestibility and nutrient retention.

FEED TESTING AND RATION FORMULATION

Bring it all together with personalized ration formulation based on the analyzed nutritional content of your feed ingredients.

BIOAVAILABLE TRACE MINERALS

Dairy VT-Max® and Dairy Tri-Max® are precisely balanced trace mineral and vitamin supplements, formulated using the latest mineral technology to optimize all aspects of milk production.

PROPRIETARY SYNBIOTICS

Tri-Lution® contains a patented source of live (viable), naturally-occurring microorganisms, including yeast, lactic acid-producing bacteria and pre-biotic nutrients that provide balance in the rumen and intestines to promote overall health and performance.

DIRECT-FED MICROBIALS

Ru-Mend® and Zy-Mend® are enzyme products that deliver targeted improvements in starch, protein and fiber digestion, resulting in enhanced performance and feed efficiency.

“CAPTURING THE NUTRITIONAL VALUE IN FEEDS IS THE KEY TO PROFIT.”
