Accu-Trac® Repleni-Trac®

Automate your product inventory process, while simultaneously providing unrivaled insight into product usage.

Accu-Trac Repleni-Trac lowers the stress of managing your animal health inventory, with the right product, in the right place, at the right time.

Easy to use

- Products are easily scanned in and out on a handheld device, saving you time while ensuring your inventory is up to date

No more stockouts

- Running out of product can cost you; eliminate last minute animal health product runs by automating your product inventory process

Fully integrated

- Inventory information resides within the Accu-Trac software, so you'll have increased visibility into product usage
- Reordering is simple through mwiah.com
