Accu-Trac® Scale

Capture cattle and commodity information in
an easy and efficient manner

This customizable Kiosk system can be run either by employees or delivery drivers and creates tickets that can be printed by a thermal printer with ability to integrate into the Accu-Trac system.

Customizable

- Customizable equipment layout options designed for either in office operation for your employees or contactless outdoor operation
- Data points can be customized to best fit your needs

Fully integrated

- Ticket information resides in the Accu-Trac software where it can easily become a part of the feed inventory
- Commodity ticket information resides in the Accu-Trac software where it can easily become a part of the feed inventory

Convenient

- Multiple scales can be integrated onto one Accu-Trac Server
- Reduces time spent manually inputting scale ticket information
