

FOR IMMEDIATE RELEASE

Datamars Livestock is pleased to introduce –the expansion of the Animal Health Delivery Systems product line by adding **NJ Phillips Disposable Needles & Syringes** complimenting the NJ Phillips repeater syringes, nylon syringes and VS Injectors. NJ Phillips products have been in the market for over 90 years, serving both the animal health delivery and horticulture industries.

Available in retail and bulk packaging, NJ Phillips Disposable Needles & Syringes bring a choice to distributors with exceptional account service and support. Pack size configurations vary for needles, syringes and combinations and come with a host of features tailored to meet the diverse needs of animal health management.

Datamars Livestock is dedicated to simplifying the procurement process for its customers. By integrating NJ Phillips Disposable Needles, Syringes, and Combinations into their orders, customers benefit from a streamlined, one-stop shop experience. Distributors and dealers have the convenience of dealing with a single vendor for all their animal health needs, optimizing efficiency and reducing complexity in their supply chains.

For more information about the NJ Phillips Disposable Needles & Syringes and other NJ Phillips products, please visit www.njphillips.com.

About Datamars:

Founded over 35 years ago, Datamars' growth has been built on research and development-based innovation. It's our business to deliver world-leading livestock management and animal health delivery solutions with a core focus on accelerating the sustainability of livestock production. Our solutions cover farm infrastructure, animal identification, weight and activity based individual animal performance systems, animal health delivery systems, and real-time performance insights with the Datamars Livestock cloud software. Well-known brands include Z Tags, Temple Tag, Tru-Test, Speedrite, Patriot, NJ Phillips and Simcro. Datamars Inc. North America is based in Temple, TX.
