FIGURE 6

	Navigation button. Located in the left sidebar. This button controls which button is displayed directly below it. Click the Navigation button to switch the platform between the following views:
	
	  Dairy Dashboard
	
	  Dairy Configuration
	
	 The buttons that are displayed just beneath the Navigation button will vary based on which navigation option you choose. Examples:

	Dairy Dashboard button. Located in the left sidebar. If you do not see this button, click the **Navigation** button and select **Operations** from the Navigation menu.
	
	 When the platform is in Operations view, the following buttons are displayed at the bottom of the left sidebar:
	
	  View DairyComp operations data.
	 NOTE: This feature is not yet available. Coming soon in a future release!
	
	  View FeedComp operations data.
	 NOTE: This feature is not yet available. Coming soon in a future release!
	
	  View ParlorComp operations data.
	 NOTE: This feature is not yet available. Coming soon in a future release!
	
	 See [View Dairy Operations Data](#) for more information.

	Dairy Configuration button. Located in the left sidebar. Indicates that the platform is in Diary Configuration view. Click this button to go to the Dairy Configuration home page.
	
	 If you do not see this button, click the **Navigation** button and select **Dairy Configuration** from the Navigation menu.
	
	 When the platform is in Dairy Configuration view, the following icons are displayed at the bottom of the left sidebar:
	
	  View DairyComp configuration options.
	 NOTE: This feature is not yet available. Coming soon in a future release!
	
	  View FeedComp configuration options.
	 NOTE: This feature is not yet available. Coming soon in a future release!
	
	  View ParlorComp configuration options.
	 NOTE: This feature is not yet available. Coming soon in a future release!
	
	 See [Platform Configuration Options](#) for more information.
