FOR EVERYTHING YOU CARE ABOUT

PRODUCT
GUIDE

GET TO KNOW OUR COMPANIES

ABOUT BIOZYME

BioZyme® Inc., headquartered in Saint Joseph, MO, has been in the animal health and nutrition business for more than 70 years. We specialize in producing fermented products, like AO-Biotics® Amaferm®, as well as offering a complete line of supplements for cattle, horses, dogs, cats, sheep, goats, pigs and chickens.

We strive to be an innovative, high growth business that provides solutions to benefit the sustainability of our customers and stakeholders.

We aim to utilize mutually beneficial partnerships for consistent expansion of our domestic reach of safe, effective animal supplements, while striving to become a leading global provider of biotechnologies, utilizing “Care that Comes Full Circle” as the guide.

While Care that Comes Full Circle is used to express how we feel about the animals we serve, it doesn’t stop there. We feel the same about our BioZyme family, and you are part of our family. As a family we aim to incorporate this care in all that we do.

ABOUT COGENT

Founded in 2005 and acquired by BioZyme in 2018, Cogent Solutions Group, located in Lexington, KY, is a leader in polysaccharide ingredient development and supplement manufacturing. We deliver the highest level of customer satisfaction with our products and service in a responsible and ethical manner.

We believe people and animals deserve effective supplements with high-quality, patented ingredients and excellent results.

OUR PROPRIETARY INGREDIENTS

AO-Biotics® Amaferm® is a prebiotic research-proven to enhance digestibility. Amaferm® can be found in nearly all of BioZyme's animal health and nutrition products. To learn more about Amaferm®, visit www.aobiotics.com.

MHB3® Hyaluronan is a high molecular weight hyaluronic acid (HA) patented and proven for the support of GI tissue integrity, joint, and bone health. MHB3® can be found in a collection of BioZyme's animal health products.

AO-Biotics® EQE is the **first-and-only** AO postbiotic developed specifically for layers. Built on BioZyme's 60+ years of *Aspergillus oryzae* (AO) fermentation expertise to offer products that enhance animal health, welfare and productivity. AO-Biotics EQE® can be found within the Backyard Boost brand of products.

VitaFerm® REPRO⁺MAXX®

MAXIMIZE REPRODUCTIVE SUCCESS

VitaFerm® is a line of nutritional supplements for beef cattle that maximize energy and forage utilization for successful production. VitaFerm® ReproMaxx® products provide high vitamin and mineral fortification and research-proven components to take reproductive success to the MAXX.

THE BIOZYME DIFFERENCE

Products must pass comprehensive third-party audits, pass random independent product testing, and maintain ongoing rigorous NASC quality standards.

The Clean Sport seal provides reassurance that select products have been tested and cleared by a third-party laboratory indicating they are compliant with common competition rules and regulations.

All of our products include fermented technologies backed by 60+ years of published research and 150+ university and clinical studies.

Our facility is an ionophore-free, closed production system, and certified SFSF / cGMP / HAACP to ensure safe, accurate product.

BioZyme Incorporated was awarded the 2024 American Feed Industry Association (AFIA) Feed Facility of the Year. This prestigious award is presented annually to a facility demonstrating an outstanding commitment to quality, safety, productivity, regulatory compliance, employee development and customer relations.
