## Revolutionize Your Dairy Operation with Smarter Herd Management

Dedicated to helping dairy farms thrive with the most advanced and dependable herd management software available. As an employee-owned company, we understand the value of hard work and fast, reliable support—so you can focus on producing quality milk while we handle the data that drives your operation.

### **Save time with Cow-Side Entry**

User-friendly mobile and web apps with quick training, increased efficiency, and fewer errors using customizable cow-side data entry.

### **Data in ONE Location**

Interface with the data you create every day. BoviSync works with most parlors and activity systems.

### **Powerful Reporting**

Transform dairy data into powerful reports with unique animal records and cross-farm comparisons. Data is always owned by YOU.

### **Access from Anywhere**

Access from any browser—no software licenses needed. Access your herd records on the go with your laptop or mobile phone.
