

# Introducing the New **SST-DRIVER**<sup>TM</sup>

**The High-Performance Silicone Liner that does the change-out work for you!**

## SAVE LABOR, TIME AND MONEY

No more disassembly, no shell washing, no reloading – ever!

- SILICONE FOR EXTENDED SERVICE LIFE**  
Change-out liners less frequently; service life: 6,000-8,000 cow milkings
- IDEAL FOR LARGE HERDS**  
The new SST-Driver is especially focused on efficiency for large dairy operations
- INTELLIGENT DESIGN**  
Pre-assembled and ready to milk, in a single-use, lightweight, recyclable shell.
- TRANSITIONAL BARREL**  
Round to square transition minimizes mouthpiece vacuum. Reduces ringing and congestion on teat; greater cow comfort
- SQUARE HACKLE**  
This patented feature prevents twists, ensures a secure fit every time
- VENTED & NON-VENTED**  
Both options available
- LOCKING HEAD DESIGN**  
Eliminates twisting and prevents the head of the liner from pulling away from the shell
- INDEPENDENTLY TRIALED**  
Proven on the farm, at real-life working dairies

## The labor-saving Evolution SST-Driver

is the unique, high-performance silicone liner you've been looking for. To bring this brilliant thinking to your **large-herd operation**, contact us today.
