

# Weigh Scale

## Indicators

### **Livestock Weight Management Solutions** **Weighing made easy – Weigh. Track. Act.**

**Rugged and dependable Tru-Test Weigh Scale Indicators take the guesswork out of weighing.**

Tru-Test's weigh scales are fast and accurate, allowing you to make informed decisions, track weigh gains/losses, ensure accurate treatment dosages, and more. All indicators feature Superdamp™ technology, unique to Tru-Test, to record accurate weights quickly, even with the liveliest animals. Within seconds our weigh scales lock on a weight, and a bright stable light lets you know it's been recorded. An auto zero function also ensures any accumulation of animal dirt or manure is zeroed after the animal leaves the scale.

Indicators streamline the process of recording individual livestock weights and matches the weight to the identification tag. By connecting to the Data Link mobile app, data automatically uploads to our Cloud-based software and can be shared with third parties including veterinarians and AI technicians.

- ✔ Simple and Fast to Setup
- ✔ Easy-to-read Weights
- ✔ Record Weights in Real-Time
- ✔ Waterproof, Dust and Corrosion Resistant
- ✔ Wireless Connectivity
- ✔ Robust Design
- ✔ Data Link Mobile App Compatibility
- ✔ Third-party Data Transferability
