

INTRODUCING

NJ PHILLIPS VS INJECTOR

THE ULTIMATE ALL-IN-ONE INJECTOR

OVERVIEW

The ultimate all-in-one injector.

The new VS Injector is designed with ultimate flexibility for cattle producers. Packed with features to protect both people and livestock, it delivers accurate fixed dose volumes safely and effectively. The ergonomic design provides a comfortable grip for sustained use. This all-in-one versatile device quickly switches from a bottle mount to a tube fed injector. The VS Injector gives producers the power to protect the health of their livestock with one top of the line device.

DATA SHEET

ERGONOMIC DESIGN

Designed for a relaxed, comfortable grip for sustained use.

VERSATILITY

The mix and match assembly changes from a bottle mount to a tube fed injector. Interchangeable dose chambers are available in 1mL, 2mL & 5mL and are easily distinguished by the use of colored ID band.

COMPLIANCE

Complies to treatment protocols by delivering accurate and exact fixed doses for a variety of vaccines and medications.

SANITATION & FOOD SAFETY

The injector can be boiled to comply with sterilization protocols.

IDENTIFICATION

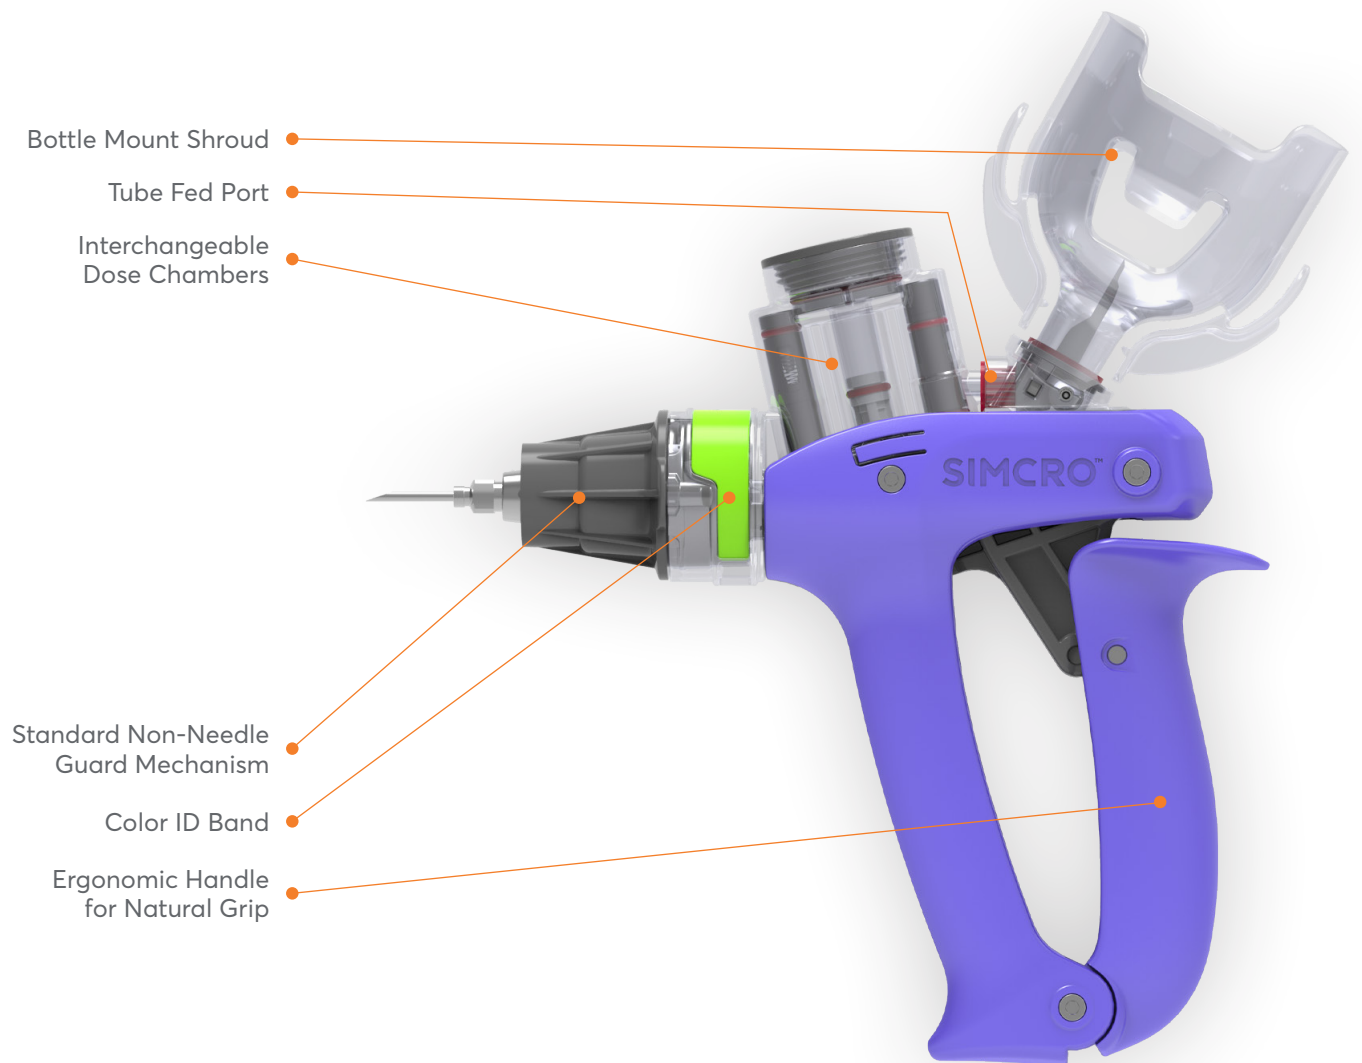

Color identification bands make it easy to match the injector to a specific treatment.

ANIMAL WELL-BEING

Easily administer subcutaneous injections to meet Beef Quality Assurance (BQA) requirements.

PRODUCT FEATURES & ADDITIONAL PARTS

Versatility of the injector:

Available in 1mL, 2mL and 5mL interchangeable dose chambers.
