

Orange

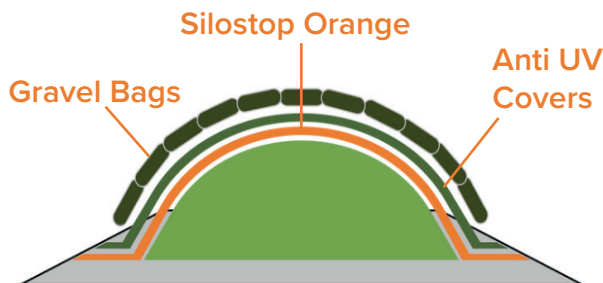

The original high oxygen barrier 1.8 mil underlayer film, for use under a standard 5 mil polyethylene sheet or an Anti-UV Cover.

Silostop High Oxygen Barrier Film cover for silage, researched around the world for over a decade, consistently improves silage quality and profit. Losses during storage and aerobic stability: average results from a meta-analysis of many trials around the world with different crops and silos:

Bunkers and piles	Number of trials	Conventional PE film	Silostop OB film
Average loss of dry matter in top layer (% of crop ensiled)	41	19.5	11.4
Average inedible DM in top layer(% of total DM ensiled)	5	10.7	3.0
Average aerobic stability of top layer silage (hours ¹)	11	75.3	134.5

¹Hours to 2°C rise in temperature above ambient. All trials were corn silage. (Wilkinson JM and Fenlon JS 2014. Grass and Forage Science, 69, 385-392)

The complete Silostop system

Max Plus

A High Oxygen Barrier Silage Film. It is our 5 mil, tough, durable one step film that blocks the entry of oxygen into silage. High UV resistance 180 KLy.

Complete

A High Oxygen Barrier Silage Cover. It is our 6 mil, tough, durable one-step film that blocks oxygen entry into silage. Weather and UV resistant for reliable, long-lasting protection.

Anti-UV Cover

To use in conjunction with Silostop Orange underlayer film. Gives physical and UV protection, reduces plastic use by 50% compared with covering with standard 5 mil polyethylene sheet.

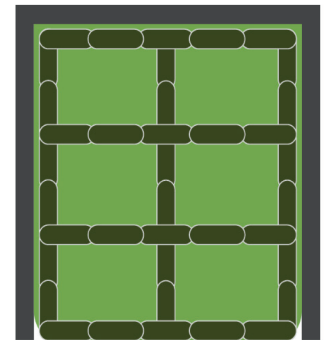

Gravel Bags

Very strong, holds up to 37 lbs of pea gravel. With handles, fill line to avoid overfilling, and integral drawstring.

How to use Gravel Bags

We advise to weight the silo with touching rows of Silostop Gravel Bags, filled with pea gravel, around the edges of the silo, along any joins and cross hatched all over the silo with no greater gap than 13ft

"We're really impressed with Silostop Complete its incredibly durable while still offering excellent flexibility."
Dairy Farmer BC, Canada

The customer was impressed with the strength, stating "I will buy a roll of this no matter what"
Dairy Farmer Wisconsin

The SILOSTOP values

- **Innovation.** Keeping at the forefront of research and development is key. We utilise unique, research-backed, industry leading products in combination with exceptional technical support to deliver a reduction in your waste and an increase on your return on investment.
- **Support.** Providing you with peace of mind is our top priority. Our team of technical experts are dedicated to keeping up to date with the latest developments in the field to give you the best support possible throughout your ensiling process, ensuring you get the most out of your silage storage.
- **Responsibility.** We live and breathe people and planet. Taking care of our team, customers, suppliers, and environment is the beating heart of our business. Engaging in more sustainable practices and processes allows us to build long-lasting relationships, reduce our impact on the planet and actively mitigate your carbon footprint.
