

Dairy Risk Management

DRP and LGM-Dairy

Now Available Together!

Two government-subsidized crop insurance programs.
Both designed to help dairy producers manage price risk.

And starting July 1, you can use both in the same quarter.

Starting July 1

For the first time, dairy producers can use both **DRP and LGM-Dairy in the same quarter**. That means more flexibility and stronger price protection, built around your operation.

A Few Key Differences

DRP

Dairy Revenue Protection

- Quarterly coverage
- Protects Class III and Class IV prices
- Available most days

LGM-Dairy

Livestock Gross Margin for Dairy

- Weight coverage to specific months
- Class III only
- Available Thursdays

There are a number of other differences between these programs.

An Ever.Ag agent can walk you through the details and help you build a strategy that fits your operation.
